

MEASURING PORTFOLIO EXPECTED RETURN

WHAT WILL YOU LEARN?

- What is the expected return on a portfolio?

REVIEW: MEASURING EXPECTED RETURN

- ▶ We use the central tendency – or the average – as a measure of the expected value.
- ▶ The expected return is a probability weighted average of the possible outcomes.

EXPECTED RETURNS

State of the economy	Prob.	Toyota	Walmart	Pfizer
Expansion	0.10	6.0%	4.5%	2.5%
Normal	0.40	7.5	5.5	-0.5
Recession	0.30	2.0	4.0	1.0
Depression	0.20	-3.0	-1.0	13.0
Expected return E(R)				

EXPECTED RETURNS

State of the economy	Prob.	Toyota	Walmart	Pfizer
Expansion	0.10	6.0%	4.5%	2.5%
Normal	0.40	7.5	5.5	-0.5
Recession	0.30	2.0	4.0	1.0
Depression	0.20	-3.0	-1.0	13.0
Expected return E(R)		3.60%	3.65%	2.95%

PORTFOLIOS

- ▶ A portfolio is a collection of different assets treated as a single asset.
- ▶ For example, let's consider a portfolio of just two securities from the table above. Say 50% Toyota and 50% Pfizer.
- ▶ Let's look at the return to this portfolio in each state of the world, and find the expected return of the portfolio.

PORTFOLIO EXPECTED RETURN: 1/2 TOYOTA + 1/2 PFIZER

State of the economy	Prob.	Toyota	Pfizer	1/2 Toyota + 1/2 Pfizer
Expansion	0.10	6.0%	2.5%	
Normal	0.40	7.5	-0.5	
Recession	0.30	2.0	1.0	
Depression	0.20	-3.0	13.0	
Expected return E(R)		3.60%	2.95%	

PORTFOLIOS

- What if we form a portfolio that consists of 50% Pfizer and 50% Walmart?

PORTFOLIO EXPECTED RETURN:

$\frac{1}{2}$ WALMART + $\frac{1}{2}$ PFIZER

State of the economy	Prob.	Walmart	Pfizer	$\frac{1}{2}$ Walmart + $\frac{1}{2}$ Pfizer
Expansion	0.10	4.5%	2.5%	
Normal	0.40	5.5	-0.5	
Recession	0.30	4.0	1.0	
Depression	0.20	-1.0	13.0	
Expected return E(R)		3.65%	2.95%	

PORTFOLIO EXPECTED RETURN

- Expected return to portfolio = weighted average of expected (mean) returns to each asset.

PORTFOLIO EXPECTED RETURNS

	Walmart	Pfizer	$\frac{1}{2}$ Walmart + $\frac{1}{2}$ Pfizer
Expected return E(R)	3.65%	2.95%	3.30%

	Toyota	Pfizer	$\frac{1}{2}$ Toyota + $\frac{1}{2}$ Pfizer
Expected return E(R)	3.60%	2.95%	3.275%

	Toyota	Walmart	Pfizer	$\frac{1}{3}$ Toyota+ $\frac{1}{3}$ Walmart + $\frac{1}{3}$ Pfizer
Expected return E(R)	3.60%	3.65%	2.95%	3.40%

SUMMARY

- Portfolio expected return is simply a weighted average of the expected returns of the individual assets.
